Affordable Beauty

For your unique refacing project, you will be offered a wide selection of woods, styles, and colors. And because custom refacing demands custom manufacturing, we rely on the people whose name is synonymous with custom made quality - **The Amish.**

A healthy lifestyle...

Visit our showroom off Route 24, across from the main entrance to Illinois Central College. See a variety of choices of hardware, wood finishes, door styles, etc. for you to choose from. We will show you the whole process that saves you money by keeping your cabinet frames, but upgrading the look to whatever style you prefer!

kitchens

We have installed well over 3,000 kitchens in the central Illinois area!
